Healthiest Workplace Challenge – Change Your Life And Win

Each year, corporations lose billions of dollars due to ineffective leaders, stressed or sick employees, or projects that simply go astray. HR executives play a critical and essential role in helping corporations understand the value of having a healthy workplace. As part of our continuing commitment to the ongoing education of HR professionals, HR.com is launching the Healthiest Workplace Challenge. The challenge is open to any firm that wants to drive bottom line results and create a healthier work environment.

The Challenge is a new initiative being introduced at HR.com's 2009 Employers of Excellence Conference, being held January 27-29, 2009 in Las Vegas. The Healthiest Workplace Challenge is modeled after reality-TV shows such as "The Biggest Loser". Participating companies will be grouped by industry and/or size, and will compete against each other to see which one can make the most improvements in each of three key areas in the course of a year.

Health & Wellness • Leadership • Change Management

The Healthiest Workplace Challenge provides companies with the opportunity to learn how to implement a plan with its employees that will make a significant impact on performance, costs, and the bottom line.

Learn how you can make changes in the following three key areas that will result in a significant impact on your company's performance:

1. Employee Health & Wellness
2. Strong Leadership
3. The Ability to Manage Change

Join us. Learn how you can participate against other companies of comparable size and/or industry. Each month, results will be published showing who is winning in each key area. At the end of The Challenge, our panel of judges will select and award prizes to the companies in each key area who have achieved the best results. The grand prize and Healthiest Workplace title will be awarded to the overall challenge winner.

Join Us & Win
